Hello,

As staff representatives, and on behalf of the employees of Quantic Dream, we unequivocally object to the unprofessional, decidedly untrue accusations that have been levelled at us for years now, as well as to the malicious dissemination of damaging images. Employees are tired of the constant attacks from outside sources who follow a personal agenda, never taking into account our own experiences and testimonies.

Quantic Dream is a rare diverse, collaborative and optimistic group of employees. It is run with kindness, positivity and professionalism. We remind you that we are open to constructive and respectful exchanges, with a view to enriching the quality of company life; however, we no longer accept new allegations that flout the human values of our teams.
